

 **FERDI ISKANDAR, M.D.**
M.D., LL.B., M.Kn. • Physician • Healthcare AI Systems Architect • Hospital CEO

AT THE INTERSECTION OF LAW, CODE, AND COGNITION.

Multidisciplinary depth is strength. From statutory health tech regulation to foundation model architectures, every decision is guided by multidimensional rigor. A clinician, hospital CEO, and legal strategist engineering healthcare AI because clinical realities demand institutional accountability, patient safety, and real-world clinical validation — not merely algorithmic benchmarks in simulation.

“Every degree pursued. Every standard proven.”
Not merely a developer, not an academic — a builder of complete systems.

CLINICAL AI & ARCHITECTURE

Architect of Clinical Trajectory Engines (FTDR) and The Clinical Mind Algorithm (TCMA). Bridging neuro-symbolic AI and FHIR R4 / SATUSEHAT for explainable, frontline clinical decision support.

GOVERNANCE & HEALTH LAW

Master of Notary & Health Law expertise for bioethics risk mitigation, EHR privacy compliance, medico-legal AI defense, and patient safety frameworks where licensed clinicians retain final clinical authority.

EXECUTIVE DOSSIER

Ferdi Iskandar, M.D.
M.D. • LL.B. • M.Kn.
Founder & CEO, Sentra AI
CEO, RSIA Melinda DHAI Hospital
Primary Care Physician (Level-1)
Legal Bureau Board (BHP2A), IDI Kediri

INSTITUTIONAL FOUNDATION & PRODUCTION CLINICAL OPERATIONS

RSIA MELINDA DHAI & SENTRA HEALTHCARE AI

Maternal-child hospital anchor deployment & clinical AI validation site • Kediri, East Java

10+ YEARS
HOSPITAL CEO
Zero mortality record

100 BEDS
CLINICAL FACILITY
~5,000 deliveries/yr

45,030+
CLINICAL RECORDS
1,930 ICD-10 codes

TRI-DOMAIN
MEDICINE • LAW • AI
Licensed clinician

EXPERIENCE & CLINICAL LEADERSHIP

- 01 2025 — Present**
Founder & CEO • *Sentra AI*
Engineering preventive healthcare OS, clinical trajectory models (FTDR), clinical NLP (C-STDI), and adaptive CDSS.
- 02 2016 — Present**
Chief Executive Officer • *RSIA Melinda DHAI*
Leading private maternal-child hospital: institutional governance, quality, patient safety zero-mortality record, and anchor AI site.
- 03 2021 — Present**
Primary Care Physician • *Level-1 Care*
Frontline clinical practice: screening, continuity of care, and decision accountability at initial patient contact.
- 04 2023 — Present**
Legal Bureau Board (BHP2A) • *IDI Kediri*
Indonesian Medical Association: legal defense, statutory medical law compliance, ethics governance, and member advocacy.
- 05 2026 — Present**
Member • *Indonesia AI HUB & DSI*
National AI ecosystem collaboration, neuro-symbolic research exchange, and computational healthcare data governance.
- 06 2014 — 2016**
Emergency Room Clinician • *Regional Hospitals*
Frontline emergency medicine: acute decision-making under severe time constraints and limited tertiary resources.

EDUCATION & HIGHER CREDENTIALS

- 2008 — 2013**
Doctor of Medicine (M.D. / dr.)
Universitas Wijaya Kusuma Surabaya
General Medicine, clinical diagnostics, hospital clerkship rotations, and comprehensive frontline patient care.
- 2005 — 2008**
Master of Notary Law (M.Kn. / LL.M. equiv.)
University of Surabaya (Ubaya)
Postgraduate Legal Degree. Master's Thesis: Bioethics & Legal Dimensions of Surrogate Motherhood in Reproductive Medicine.
- 2001 — 2005**
Bachelor of Laws (LL.B. / S.H.)
University of Surabaya (Ubaya)
Corporate Law, regulatory frameworks, statutory compliance, and institutional governance foundations.

RESEARCH & SCIENTIFIC PUBLICATIONS

- The Clinical Mind Algorithm (TCMA) • 2026**
Lead Researcher & Systems Architect
Biomimetic Computational Neuroscience, SNN & Neuro-Symbolic CDSS architecture (94% accuracy, 92% explainability).
- Clinical Trajectory Algorithm • 2025**
Published at Kaggle
Longitudinal clinical signal modeling and forward transition deterioration risk (FTDR) for resource-constrained care.
- Culturally Grounded Prompt Engineering • Forthcoming**
Healthcare AI Research Paper
Contextual human-AI interaction frameworks tailored to Indonesian medical linguistics and institutional workflows.
