01

EXECUTIVE SUMMARY

DECISION-ORIENTED

[Replace with a concise executive summary. State context, material finding, implication, and the decision or action required. Keep the first page useful even when read alone.]

KEY POINT

[One sentence containing the single point a decision-maker must retain.]

02

SECTION HEADING

ONE IDEA / SECTION

2.1 SUBSECTION TITLE

[Lead / intro text. Use one short paragraph to frame the subsection before sustained body text.]

[Body text. Use IBM Plex Sans for sustained reading. Prefer short paragraphs, concrete language, and evidence adjacent to the claim it supports. Do not use decorative prose to manufacture importance.]

[Continue with the minimum content needed to explain the issue. Use whitespace and headings before introducing another container.]

KEY POINT

[Use for a materially important observation, constraint, or interpretation. Not every section needs one.]

METRIC / ITEM**CURRENT****INTERPRETATION**

Example metric

42

[Explain what 42 means]

Example status

PASS

[State relevance]

Example variance

-7%

[State implication]

DECISION

[Decision required, decision taken, or governing instruction. Write it as an executable sentence.]

RISK / ISSUE

[Describe the risk or issue, consequence, owner or dependency if known, and next control/action. Severity must also be stated in words; color is not sufficient.]

“[A short governing principle, quotation, or operating rule that clarifies how the section should be interpreted.]”

PRINCIPLE / SOURCE / OWNER

03 NUMBERED RECOMMENDATIONS

SEQUENCED / ACTIONABLE

-
- | | |
|----|---|
| 01 | [Recommendation stated as a specific action, with the outcome implied or named.] |
| 02 | [Second recommendation. Keep sequence meaningful; do not number decorative observations.] |
| 03 | [Third recommendation. Add owner, timing, or dependency in the sentence when material.] |

A APPENDIX

REFERENCE / OPTIONAL

Appendices preserve the same grid, typography, table logic, and footer furniture as the main document. They may carry denser evidence, source notes, or technical detail, but they do not become a different visual system.
