

PANDUAN PROFESIONAL

TRANSISI LEGAL KORPORASI

Kerangka keputusan, kesiapan, eksekusi, dan tata kelola pascatransisi

STATUS	Dokumen kerja untuk pengambilan keputusan
BERLAKU PER	15 Januari 2026
REVISI	Revisi 1.3 · Karel allocation rebase · 16 Agustus 2026
KLASIFIKASI	RAHASIA & TERBATAS — distribusi sesuai kebutuhan

CATATAN PROFESIONAL

Panduan ini bukan opini hukum, pajak, akuntansi, investasi, atau ketenagakerjaan. Setiap struktur, ambang, perizinan, valuasi, dan konsekuensi wajib dikonfirmasi berdasarkan fakta Sentra serta peraturan yang berlaku pada saat implementasi oleh penasihat Indonesia yang berwenang.

Strategi dijaga. Risiko dikendalikan. Akuntabilitas dibangun.

Tentang panduan ini

Panduan ini menerjemahkan strategi transisi Sentra menjadi rangkaian keputusan yang dapat diaudit: menetapkan alasan bisnis, memvalidasi kesiapan, menentukan bentuk transaksi, menutup dependensi kritis, mengeksekusi perpindahan secara terkendali, dan menjaga tata kelola setelah tanggal efektif.

PRINSIP PENGGUNAAN

Dokumen ini adalah control framework, bukan pengganti nasihat profesional. Isian berlabel “konfirmasi” atau “TBD” harus ditutup dengan bukti sebelum keputusan final. Jika fakta, regulasi, atau strategi berubah, Steering Committee wajib menilai dampak dan menerbitkan revisi.

Metadata & kendali dokumen

Atribut	Keterangan
Pemilik dokumen	Sentra Corporate Transition Office / pihak yang ditunjuk Direksi
Sponsor eksekutif	Direksi / pemegang saham pengendali — konfirmasi nama
Berlaku per	15 Januari 2026
Revisi	Revisi 1.3 · Karel allocation rebase · 16 Agustus 2026
Siklus review	Pada setiap gate; sekurang-kurangnya ketika fakta material atau hukum berubah
Distribusi	Need-to-know; daftar penerima dan versi dicatat
Status legal	Dokumen kerja non-binding; persetujuan formal mengikuti kewenangan korporasi

Daftar isi

Bagian	Fokus
01	Ringkasan eksekutif
02	Profil dan konteks korporasi Sentra
03	Prinsip desain & asumsi kerja
04	Decision gates
05	Readiness checklist
06	Workplan bertahap
07	Struktur transaksi & jalur migrasi
08	Data room dan dokumen
09	Stakeholder & RACI
10	Opsi ESOP / phantom stock
11	Pajak, akuntansi & treasury

12	Risiko & kontrol
13	Tata kelola pascatransisi
14	Komunikasi & change management
15	Day-1 / Day-30 / Day-100
16	Lampiran alat kerja

PEMBARUAN NOMOR HALAMAN

Field halaman pada footer diperbarui otomatis saat dokumen dibuka/print di Microsoft Word. Daftar isi konseptual di atas sengaja tidak mengunci nomor halaman agar stabil selama iterasi.

01 Ringkasan Eksekutif

Mentransisikan Sentra tanpa memutus kontinuitas usaha atau melemahkan kendali.

Sentra bermaksud menjalankan transisi legal korporasi secara bertahap menuju struktur target yang lebih siap untuk pertumbuhan, pemisahan risiko, pembiayaan, kepemilikan talenta, dan tata kelola profesional. Panduan ini mempertahankan strategi inti tersebut: keputusan tidak ditentukan oleh bentuk hukum semata, melainkan oleh kesiapan operasional, kepastian hak dan kewajiban, kualitas data, serta kemampuan mengoperasikan entitas target sejak hari pertama.

Hasil yang dicari

- Struktur target menjelaskan dengan tegas siapa pemilik aset, kontrak, IP, data, pegawai, kas, kewajiban, dan keputusan utama.
- Tidak ada perpindahan aset atau hubungan bisnis material tanpa jalur legal, persetujuan, valuasi, pajak, akuntansi, dan bukti serah-terima yang memadai.
- Operasi pelanggan, pemasok, pekerja, bank, sistem, dan pelaporan tetap berjalan sebelum, pada, dan setelah tanggal efektif.
- Investor-readiness meningkat melalui cap table bersih, data room terindeks, hak IP terdokumentasi, kontrol keuangan, dan governance cadence.
- Insentif jangka panjang disejajarkan dengan nilai yang benar-benar terbentuk, tanpa menjanjikan instrumen sebelum kelayakan legal, pajak, dan akuntansi diverifikasi.

Keputusan yang diminta dari pimpinan

Keputusan	Pertanyaan kunci	Output minimum
Mandat	Masalah bisnis apa yang diselesaikan dan apa yang tidak masuk lingkup?	Project charter, sponsor, prinsip non-negotiable
Struktur target	Entitas mana memegang operasi, IP, aset, pegawai, dan investasi?	Structure chart + rationale + legal/tax memo
Jalur migrasi	Novasi, pengalihan, lisensi, kontribusi, jual-beli, atau kombinasi?	Transaction steps plan dan consent map
Tanggal efektif	Apakah semua critical path dan rollback criteria terpenuhi?	Cutover plan, go/no-go pack
Governance	Siapa memutus setelah transisi dan bagaimana konflik dikelola?	Authority matrix, reserved matters, board calendar

REKOMENDASI EKSEKUTIF

Gunakan pendekatan stage-gated. Jangan menetapkan tanggal efektif hanya berdasarkan target kalender. Gate hanya dapat ditutup jika bukti tersedia, pengecualian dicatat, residual risk diterima oleh pemilik risiko, dan penasihat profesional telah meninjau isu material.

Definisi keberhasilan

Dimensi	Indikator keberhasilan	Bukti
---------	------------------------	-------

Dimensi	Indikator keberhasilan	Bukti
Legal	Kewenangan, dokumen transaksi, consent, registrasi, dan izin terpetakan serta efektif	Closing binder; opinions/memos bila relevan
Komersial	Kontrak prioritas tetap enforceable dan pelanggan tidak terganggu	Consent tracker; customer confirmation
Operasional	Order-to-cash, procure-to-pay, payroll, layanan, dan akses sistem berfungsi	Day-1 test log; incident register
Keuangan	Opening balance, intercompany, rekening, invoice, dan pelaporan dapat direkonsiliasi	Signed opening balance; reconciliations
People	Status pekerja, benefit, komunikasi, dan retensi talenta kritis terkendali	Transfer/contract pack; acknowledgment
Governance	Kewenangan, rapat, reserved matters, delegasi, dan konflik kepentingan dijalankan	Minutes; authority matrix; board pack

02 Profil & Konteks Korporasi Sentra

Satu profil yang kredibel—tanpa mengubah asumsi menjadi fakta.

Sentra diposisikan sebagai platform usaha yang sedang mematangkan fondasi korporasi untuk mendukung skala, kemitraan, pembiayaan, dan retensi talenta. Karena dokumen sumber pendukung belum menjadi legal due-diligence report, setiap fakta profil di bawah harus dikonfirmasi terhadap akta, sistem administrasi badan usaha, perizinan berbasis risiko, dokumen pajak, kontrak, dan catatan keuangan terkini.

Company profile snapshot

Elemen	Narasi kerja 2026	Status verifikasi
Nama/brand	Sentra dan nama-nama Sentra terkait tetap menjadi identitas strategi	Konfirmasi daftar nama legal, merek, domain
Entitas saat ini	Entitas operasional/kontraktual Sentra yang menjalankan kegiatan hari ini	TBD—salin persis dari dokumen resmi
Entitas target	Kendaraan korporasi target yang akan menerima fungsi sesuai structure blueprint	TBD—subject to advice and approvals
Proposisi nilai	Platform yang mengonsolidasikan kapabilitas, relasi, dan aset untuk pertumbuhan berkelanjutan	Validasi dengan strategi bisnis
Pemegang kepentingan	Pendiri/pemegang saham, pekerja, pelanggan, pemasok, mitra, regulator, bank, calon investor	Stakeholder register
Ambisi	Struktur yang scalable, auditable, investable, dan mampu mengelola risiko	Disetujui sponsor

Konteks current-state yang harus dipotret

- Legal entity map: seluruh badan usaha, cabang, beneficial ownership, pengurus, lokasi, dan status administrasi.
- Value-chain map: siapa menjual, menagih, menyimpan kas, mempekerjakan, mengembangkan IP, mengelola data, dan menanggung kewajiban.
- Contract map: pendapatan, vendor kritis, sewa, pembiayaan, jaminan, lisensi, kerja sama, dan change-of-control/assignment clauses.
- Asset and IP map: kepemilikan ekonomis versus legal, bukti pembelian/penciptaan, registrasi, lisensi open-source, dan encumbrances.
- People map: status hubungan kerja, lokasi, kompensasi, benefit, masa kerja, pekerja kunci, freelancer, dan potensi sengketa.
- Finance/tax map: ledger, historical positions, losses/credits jika ada, transfer pricing, related parties, tax audits, dan contingent liabilities.
- Data and technology map: controller/processor roles, lokasi data, akses, vendor cloud, cybersecurity, retention, dan incident history.

ATURAN FAKTA

Gunakan empat label: Confirmed, In Review, Gap, dan Not Applicable. Tidak ada item material yang boleh diberi label Confirmed tanpa sumber, tanggal, pemilik, dan reviewer.

03 Prinsip Desain & Asumsi Kerja

Membatasi kompleksitas sambil menjaga fleksibilitas strategi.

Prinsip	Penerapan
Substance before form	Struktur mengikuti fungsi nyata, risiko, orang, aset, dan pengambilan keputusan—bukan sekadar diagram.
No orphan assets/liabilities	Setiap aset, kewajiban, izin, data set, dan kontrak memiliki owner sebelum dan sesudah cutover.
Consent before transfer	Tidak mengasumsikan kontrak/izin dapat dipindah; consent atau penggantian didokumentasikan.
Tax is a design input	Konsekuensi pajak dan bea diuji sebelum struktur dikunci; tidak bergantung pada satu asumsi valuasi.
Day-1 operability	Entitas target memiliki rekening, invoice, payroll, sistem, delegasi, dan prosedur minimum sebelum live.
Evidence over assertion	Keputusan gate didukung evidence pack yang version-controlled.
Proportional governance	Kontrol sebanding dengan risiko dan tahap usaha; cukup kuat tanpa menghambat operasi.
Reversible where possible	Gunakan pilot, parallel run, conditions precedent, dan rollback plan untuk area kritis.

Asumsi yang tidak boleh diperlakukan sebagai fakta

- Bahwa perubahan bentuk/entitas otomatis memindahkan seluruh izin, kontrak, pegawai, data, atau riwayat pajak.
- Bahwa seluruh pemegang saham, pasangan, kreditur, pelanggan, landlord, bank, atau regulator akan memberikan consent.
- Bahwa nilai buku sama dengan nilai wajar atau dapat digunakan tanpa analisis untuk transaksi pihak berelasi.
- Bahwa insentif ekuitas/phantom menghasilkan perlakuan pajak atau akuntansi tertentu tanpa menilai desain final dan fakta peserta.
- Bahwa ambang, tarif, tenggat, atau klasifikasi yang pernah berlaku masih berlaku pada tanggal transaksi.

04 Decision Gates

Enam gerbang untuk mencegah keputusan prematur dan memastikan akuntabilitas.

Gate	Tujuan	Kriteria minimum	Keputusan
G0 Mandate	Tetapkan why, scope, sponsor	Charter; strategy fit; budget; owners; confidentiality	Launch / hold
G1 Fact Base	Validasi current state	Entity, contract, people, asset/IP, tax, data maps; gaps logged	Proceed / remediate
G2 Design	Pilih struktur dan jalur	Options paper; professional review; valuation approach; downside cases	Select / redesign
G3 Readiness	Pastikan closing-ready	Approvals, documents, consents, funding, Day-1, CP tracker	Sign / defer
G4 Cutover	Aktifkan target secara aman	Go/no-go pack; reconciliations; command center; rollback criteria	Go / no-go
G5 Stabilise	Tutup defect dan residual risk	30/60/100-day review; binder; KPIs; exceptions assigned	Close / extend

Format gate paper

1. Decision requested dan batas keputusan.
2. Ringkasan fakta, perubahan sejak gate sebelumnya, dan sumber bukti.
3. Opsi, konsekuensi, sensitivitas, serta alasan rekomendasi.
4. Top risks, mitigasi, residual exposure, dan risk acceptance owner.
5. Conditions precedent, conditions subsequent, dan pengecualian.
6. Pernyataan reviewer legal, pajak, akuntansi, people, data/IT, dan bisnis.
7. Resolusi, dissent/abstention, tanggal, dan daftar lampiran.

STOP-THE-LINE AUTHORITY

Legal lead, tax lead, finance controller, data/security lead, dan cutover lead masing-masing dapat mengeskalasi no-go apabila terdapat pelanggaran hukum, kekurangan kewenangan, risiko likuiditas, kegagalan data, atau ketidakmampuan operasional yang material. Steering Committee memutus setelah isu dan residual risk dicatat.

05 Readiness Checklist

Checklist berbasis bukti untuk Gate 3 dan Gate 4.

Workstream	Check	Evidence	Owner	Ready
Corporate	Akta, register, beneficial ownership, pengurus, kewenangan, reserved matters	Corporate extract; approvals; legal memo	Legal	☐
Licensing	KBLI/kegiatan, OSS/perizinan, sertifikasi, lokasi, sector requirements	License matrix; regulator confirmations	Legal/Operations	☐
Contracts	Assignment/novation, CoC, termination, exclusivity, consent	Executed consents; replacement contracts	Commercial/Legal	☐
Assets	Title, condition, encumbrance, transfer instrument, insurance	Asset register; handover; endorsements	Finance/Ops	☐
IP/brand	Creator chain, assignments, trademarks, domains, software licenses	IP schedule; registrations; licenses	Legal/Tech	☐
People	Status, transfer path, accrued rights, benefits, consent/communication	People schedule; signed documents	People/Legal	☐
Tax	Transaction tax, historical exposures, invoicing, registrations, TP	Tax memo; filings; implementation steps	Tax/Finance	☐
Accounting	Opening balances, policy elections, consolidation, impairment	Opening balance pack; policy paper	Finance	☐
Treasury	Accounts, signatories, cash plan, payment access, covenants	Bank confirmations; liquidity forecast	CFO/Treasury	☐
Data/privacy	Legal basis, notices, DPA, cross-border flow, retention, access	Data map; updated notices; access test	DPO/Legal/IT	☐
Technology	Tenant, identity, integrations, backups, cyber monitoring	Day-1 test; rollback; incident contacts	IT/Security	☐
Operations	SOP, customer service, procurement, fulfillment, escalation	Signed operational readiness report	COO	☐
Governance	Board, delegations, policies, reporting, conflicts	Governance pack; first-100-day calendar	Board/CoSec	☐
Communications	Sequencing, scripts, FAQs, named spokespersons	Approved communication pack	Comms	☐

SCORING

Critical item: harus hijau sebelum go-live kecuali Steering Committee menerima residual risk berdasarkan written advice dan contingency. High item: owner, due date, dan control wajib aktif. Persentase penyelesaian tidak menggantikan penilaian materialitas.

06 Workplan Bertahap

Satu integrated plan dengan critical path, dependensi, dan bukti keluar.

Fase	Indicative timing*	Aktivitas inti	Exit evidence
0 Mobilise	Minggu 0–2	Charter, NDA, team, workstreams, data room, issue taxonomy	G0 approved
1 Diagnose	Minggu 1–5	Current-state diligence, interviews, maps, red flags	G1 fact base
2 Design	Minggu 3–8	Options, structure, tax/accounting, valuation, implementation route	G2 design decision
3 Prepare	Minggu 6–14	Incorporation/changes, documents, consents, licenses, systems, people	G3 readiness
4 Execute	Target date ±2 minggu	Sign, close, fund, transfer, notify, reconcile, command center	G4 go-live
5 Stabilise	Day 1–100	Defect closure, audit trail, KPI monitoring, policy embed	G5 closure

**Waktu bersifat ilustratif dan bukan tenggat hukum. Durasi aktual bergantung pada kompleksitas, consent pihak ketiga, regulator, data quality, dan struktur final.*

Milestone discipline

- Satu integrated master schedule; setiap deliverable memiliki owner tunggal, reviewer, due date, dependency, dan acceptance criteria.
- Critical path ditinjau sekurang-kurangnya mingguan; delay tidak disembunyikan melalui perubahan baseline tanpa approval.
- Issues dipisahkan dari risks; decision log memuat decision owner, opsi, alasan, tanggal, dan dampak downstream.
- Semua conditions precedent memiliki bukti; conditions subsequent dibatasi, diberi due date, dan masuk governance pascatransi.
- Cutover rehearsal dilakukan untuk arus kas, invoicing, payroll, access, data, dan customer-facing process yang kritis.

Minimum cutover runbook

Waktu	Kontrol	Pemilik
T–10 s.d. T–5	Final CP sweep; dry run; freeze non-essential changes; customer/vendor sequencing	PMO + leads
T–4 s.d. T–1	Backup; access provisioning; funding; signed-but-held documents; go/no-go inputs	IT/CFO/Legal
T / Closing	Authority check; signatures; filings; fund flow; confirmations; issue bridge	Closing lead
T+1	Bank, invoice, payroll, system, data, customer-service smoke tests	Day-1 owners
T+2 s.d. T+10	Reconciliation; defects; notifications; opening balances; handover	Finance/PMO

07 Struktur Transaksi & Jalur Migrasi

Pilih instrumen per aset dan kewajiban—bukan satu label untuk semuanya.

Jalur	Kegunaan potensial	Pertanyaan uji	Kontrol
Novasi/assignment	Kontrak pelanggan, vendor, sewa	Apakah consent diperlukan? Hak/kewajiban mana berpindah?	Counterparty tracker; effective-time alignment
Asset transfer	Aset berwujud/tidak berwujud	Title, encumbrance, valuation, tax, warranty?	Asset schedule; handover; insurance
IP assignment/license	Merek, software, content, know-how	Siapa pencipta/pemilik? Territory, term, improvements?	Chain-of-title review; registration
People migration	Pekerja atau engagement baru	Continuity, accrued rights, consent, benefits, disputes?	Individual schedule; consultation; signed pack
Service/TSA	Masa transisi atau shared services	Scope, SLA, cost, liability, data, exit?	TSA governance; monthly reconciliation
Equity transaction	Kepemilikan/pendanaan	Approvals, pre-emption, valuation, securities restrictions?	Cap table; subscription/share documents
Intercompany arrangements	License, services, funding, cost allocation	Arm's-length support, substance, withholding/indirect tax?	Agreements; TP support; invoices

Structure blueprint minimum

- Before-and-after legal entity diagram dengan ownership, voting, board appointment, dan beneficial ownership.
- Operating model: principal, service provider, IP owner/licensee, employer, contracting entity, invoicing entity, dan cash owner.
- Transaction step plan dengan sequencing, dependencies, approvals, consideration/fund flow, documents, filings, dan effective time.
- Legal, tax, accounting, regulatory, people, data, and finance implications per step—not only at final-state level.
- Fallback design jika consent, licensing, banking, atau system migration terlambat.

08 Document & Data Room Checklist

Data room yang dapat ditelusuri, dibuktikan, dan diserahkan sebagai closing record.

Index	Minimum content	Owner
01 Corporate	Akta/perubahan; approvals; registers; ownership; org chart; powers	Legal
02 Licences	Business IDs; activity/location/sector permits; certificates; correspondence	Legal/Ops
03 Finance	FS; trial balance; ledgers; budgets; debt; AR/AP; bank; assets	Finance
04 Tax	Registrations; filings; audits; assessments; disputes; TP; tax positions	Tax
05 Commercial	Top customer/vendor; pipeline; terms; rebates; warranties; claims	Commercial
06 Material contracts	Financing; lease; JV; partnership; guarantee; related-party	Legal
07 People	Anonymised roster; contracts; policies; benefits; disputes; contractors	People
08 IP & Technology	IP register; assignments; code/software; OSS; domains; cyber	Legal/IT
09 Data & Privacy	Data map; notices; consent/legal basis; DPA; incidents; retention	DPO/IT
10 Disputes	Claims, litigation, investigations, complaints, provisions	Legal/Finance
11 ESG/HSE	Environmental, safety, social, insurance, incidents	Operations
12 Transaction	Options; valuation; approvals; drafts; CP; closing; filings	PMO/Legal
13 Governance	Policies; board packs; minutes; delegation; conflicts; whistleblowing	CoSec
14 Post-close	Opening balances; reconciliations; defects; evidence; lessons learned	PMO/Finance

Data room protocol

- Naming: [Index]_[Entity]_[Document]_[YYYYMMDD]_[Status]_[Version]; hindari nama “final-final”.
- Index register mencatat owner, source, document date, upload date, confidentiality, reviewer, privilege, dan superseded status.
- PII, payroll, health, credentials, dan privileged advice dipisahkan; akses berdasarkan role dan dicatat.
- Dokumen tidak dihapus untuk menyembunyikan versi; versi superseded diarsipkan dengan retention yang disetujui.
- Closing binder bersifat read-only, memiliki checksum/index final, dan disimpan sesuai kebijakan retensi serta legal hold.

PRIVILEGE & DATA MINIMISATION

Penasihat hukum menentukan privilege protocol. Bagikan hanya data yang perlu, lakukan redaction/anonymisation bila memadai, dan jangan menaruh password, token, atau private key di data room.

09 Stakeholder & RACI

Satu accountable owner per output; reviewer profesional tetap independen.

Stakeholder	Kepentingan	Engagement
Pemegang saham/pendiri	Nilai, kontrol, dilution, liquidity, legacy risk	Gate decisions; reserved matters; conflict disclosure
Direksi/komisaris	Duties, authority, solvency, oversight	Board papers; resolutions; challenge sessions
Pekerja & key talent	Continuity, rights, incentives, clarity	Sequenced communication; Q&A; individual documents
Pelanggan	Continuity, contracting party, data, service	Tiered outreach; consent; service assurance
Pemasok/landlord/financier	Credit, payment, security, covenant	Consent and onboarding plan
Regulator/otoritas	Compliance, licences, reporting	Counsel-led filing and engagement plan
Bank/payment partners	KYC, signatories, fund flow	Early onboarding; contingency account/process
Investor potensial	Clean title, cap table, governance, quality earnings	Controlled diligence after readiness

Core RACI

Deliverable	Sponsor	PMO	Legal	Finance/Tax	People	Ops/IT
Charter & scope	A	R	C	C	C	C
Current-state fact base	I	A/R	R	R	R	R
Structure recommendation	A	C	R	R	C	C
Transaction documents	A	C	R	C	C	I
Consent & licence plan	I	A	R	C	C	R
People transition	I	C	C	C	A/R	I
Opening balance & fund flow	I	C	C	A/R	I	I
Cutover readiness	A	R	C	C	C	R
Post-close governance	A	R	R	R	C	C

R = Responsible; A = Accountable; C = Consulted; I = Informed. Nama individu, deputy, dan escalation route harus ditambahkan dalam project charter.

10 Opsi ESOP & Phantom Stock

Insentif harus selaras, dapat diadministrasikan, dan tidak mendahului review legal/pajak.

Sentra dapat mempertimbangkan insentif kepemilikan atau nilai semu setelah struktur target dan cap table stabil. Tidak ada grant, janji persentase, atau komunikasi nilai sebelum plan rules, pool, valuation basis, approvals, tax/accounting treatment, dan participant documents ditinjau secara profesional.

CHARTER V1.3 ALIGNMENT

Untuk baseline operasional Sentra per 16 Agustus 2026, Karel Sinatra adalah Core Team — Academic & Business Development dengan domain ownership untuk Sentra Academic/Tutor Smartboard, pilot institusi, customer discovery, partnership, adopsi, dan revenue accountability. Hak partisipasinya 7,5% dari laba bersih distributable, seluruhnya berasal dari Mission & Innovation Capital yang berubah menjadi 32,5%; Founder Participation tetap 30,0% dan Founding Team Participation Pool tetap 30,0%. Secara mekanis, setiap Rp1 miliar laba bersih distributable menghasilkan Rp325 juta untuk Sentra, Rp300 juta untuk Founder, Rp75 juta untuk Karel, dan Rp300 juta untuk Founding Team Pool, sebelum distribution gate, vesting, pemotongan pajak, dan persetujuan formal. Pengaturan ini bukan penerbitan saham dan wajib diformalkan melalui perjanjian phantom/economic participation, persetujuan korporasi, serta review hukum, pajak, dan akuntansi.

Opsi	Karakter	Potensi manfaat	Trade-off / isu uji
Opsi saham	Hak membeli/menerima saham jika syarat terpenuhi	Ownership alignment; upside participation	Dilution; securities/corporate steps; valuation; exercise funding; tax timing
Restricted shares/units	Saham/unit tunduk vesting, forfeiture, transfer limits	Lebih langsung; retention kuat	Minority rights; repurchase/leaver mechanics; tax and admin
Phantom stock	Hak kontraktual atas pembayaran berbasis nilai, tanpa saham	No cap-table dilution at grant; flexible population	Cash liability; accounting volatility; no true ownership; insolvency/claim risk
Cash LTIP	Bonus multi-tahun berbasis KPI/value	Simple narrative; tailored metrics	Cash burden; less ownership feel; accrual/accounting
Profit share	Bagian laba menurut formula	Near-term performance link	May incentivise short-term outcomes; definition disputes

Design decisions

Tema	Pertanyaan yang harus dijawab
Eligibility	Siapa eligible; employee/director/consultant; jurisdiction; objective criteria?
Pool & dilution	Fixed pool atau rolling; fully diluted basis; who bears dilution; refresh approvals?
Vesting	Time/performance; cliff; milestones; pause; acceleration on exit/change?
Leavers	Good/bad/intermediate leaver; vested/unvested; buyback; dispute process?
Liquidity	Exercise/payment event; cashless mechanism; settlement window; funding source?
Valuation	Independent methodology; frequency; minority/illiquidity; board discretion controls?
Governance	Grant authority; conflicts; amendment; participant communications; register?

Tema	Pertanyaan yang harus dijawab
Protection	Clawback/malus; confidentiality; IP; misconduct; no guaranteed return?
Tax/accounting	Tax point, withholding, deductibility, classification, fair value, disclosures?

Illustrative decision path

8. Confirm strategic purpose: ownership, retention, performance, or transaction readiness.
9. Segment participant population and jurisdictions; identify regulated or conflicted roles.
10. Model dilution and cash exposure under downside/base/upside and leaver scenarios.
11. Obtain Indonesia legal, tax, accounting, employment, and valuation advice on final terms.
12. Approve pool and rules through the correct corporate authority; record conflicts.
13. Issue plain-language offer plus binding documents; no oral side promises.
14. Maintain grant register, vesting evidence, valuations, withholding, and annual participant statements.

NO THRESHOLD ASSUMPTION

Dokumen ini sengaja tidak menyatakan tarif pajak, nilai ambang, masa minimum, atau pengecualian sebagai kepastian. Parameter tersebut bergantung pada struktur, status pihak, yurisdiksi, waktu, dan hukum yang berlaku ketika grant, vesting, exercise, settlement, atau disposal terjadi.

11 Pajak, Akuntansi & Treasury

Integrasikan desain, dokumentasi, dan arus kas—jangan menilai setelah penandatanganan.

Tax workstreams

Area	Analisis minimum	Evidence
Transaction taxes	Direct/indirect taxes, duties/fees, withholding, basis, timing, relief eligibility	Signed tax memo; calculations; assumptions
Historical exposures	Open years, audits, arrears, uncertain positions, permanent establishment, deductibility	Exposure register; remediation/indemnity
Related parties	Pricing, substance, benefits, agreements, benchmarking/documentation	TP policy and support
Registrations & invoicing	Tax IDs/status, e-invoice, withholding process, vendor/customer master	Activation tests; SOP
People/incentives	Employment vs capital treatment, withholding, reporting, cross-border participants	Plan-specific advice; payroll setup
Post-close	Returns, reconciliations, tax provisioning, audit trail, responsibility split	Tax calendar; owner matrix

Accounting decision paper

- Identify transaction substance, control, related-party/common-control context, and applicable reporting framework.
- Determine recognition, measurement, presentation, consolidation, comparative, and disclosure implications.
- Define opening balance methodology, cut-off, intercompany eliminations, chart-of-accounts mapping, and sign-off.
- Assess asset useful lives/impairment, provisions/contingencies, leases, revenue cut-off, employee obligations, and share-based/phantom arrangements.
- Engage auditor/accountant early where judgment is material; document disagreements and final conclusion.

Treasury & fund-flow controls

Control	Requirement
Liquidity	13-week cash forecast plus Day-1 buffer; downside scenario; funding contingency
Accounts	KYC complete; signatories and limits approved; maker-checker tested
Closing funds	Written fund-flow statement; account verification; call-back anti-fraud control
Cut-off	Old/new account and invoice cut-off; receipts/payments routing; suspense reconciliation
Intercompany	Documented purpose, approvals, pricing/interest if relevant, maturity, settlement
Covenants/security	Consent, release/new security, reporting obligations, no default confirmation

PROFESSIONAL CONFIRMATION

Seluruh angka, tarif, tenggat, klasifikasi, relief, dan filing steps harus dikonfirmasi oleh konsultan pajak/akuntan/penasihat hukum berdasarkan facts pack final dan tanggal efektif aktual. Pastikan advice menyatakan asumsi serta masa berlakunya.

12 Risiko & Kontrol

Kelola risiko sebagai keputusan, bukan sekadar daftar.

Risk	I/L*	Preventive/detective controls	Owner	Trigger
Kewenangan tidak sah	H/M	Authority matrix; approvals; signature check; legal review	Legal	No signature without evidence
Kontrak tidak berpindah	H/H	Consent map; replacement/TSA; customer prioritisation	Commercial	Critical consent missing
Izin tidak tersedia	H/H	Licence matrix; counsel confirmation; operating restriction	Ops/Legal	Cannot lawfully operate
Pajak tak terduga	H/M	Tax design memo; sensitivity; reserve; representations	CFO/Tax	Advice assumptions fail
IP title lemah	H/M	Chain-of-title; assignments; OSS scan; registrations	Legal/Tech	Core IP unresolved
People disruption	H/M	Consultation; continuity mapping; retention; grievance route	People	Critical team loss
Data/privacy breach	H/M	Data map; DPA; access; migration test; incident plan	DPO/IT	Uncontrolled transfer/access
Cash/payment failure	H/M	Liquidity buffer; bank readiness; fallback; reconciliation	CFO	Payroll/vendor critical fail
Financial misstatement	H/M	Opening balance controls; dual review; audit trail	Controller	Unreconciled material balance
Fraud/cyber at closing	H/M	Callback; MFA; least privilege; monitoring; freeze	Security/CFO	Compromised credentials
Governance deadlock	M/M	Reserved matters; quorum; escalation; conflict protocol	Board/Legal	Material decision blocked
Reputational harm	M/M	Message discipline; stakeholder sequencing; incident comms	Comms	Material misinformation

*I/L = indicative impact/likelihood (High/Medium) for prioritisation only; reassess against Sentra's approved risk matrix.

Control operating model

- Risk owner owns exposure; control owner operates control; independent reviewer challenges evidence.
- Setiap control memiliki objective, frequency/event trigger, procedure, evidence, exception route, dan backup owner.
- Residual risk hanya diterima oleh pihak dengan kewenangan dan dicatat bersama expiry/review date.
- Key controls diuji sebelum Gate 4 dan pada siklus Day-30/Day-100; kegagalan menjadi issue dengan remediation date.

13 Tata Kelola Pascatransisi

Membuat struktur target bekerja setelah dokumen ditandatangani.

Lapisan	Mandat	Cadence / artefak
Shareholders	Reserved matters, board appointments, capital, constitutional decisions	As required; written resolutions/minutes
Board	Strategy, risk, performance, capital, management oversight, conflicts	Monthly initially, then agreed cadence; board pack
Management	Operate within delegation; execute budget and policies	Weekly/monthly operating reviews
Risk & control	Monitor compliance, incidents, financial controls, remediation	Monthly dashboard; quarterly deep dives
Company secretariat	Registers, filings, minutes, authorities, annual calendar	Continuous; compliance calendar

Governance pack minimum

- Constitutional documents, shareholders' agreement where applicable, reserved matters, quorum, voting, transfer restrictions, and deadlock pathway.
- Board charter, committee terms, annual calendar, agenda template, paper standard, minutes protocol, and action tracker.
- Delegation of authority with financial/non-financial limits, dual controls, emergency delegation, expiry, and no self-approval.
- Conflict-of-interest register and procedure, related-party transaction policy, gifts/anti-bribery, whistleblowing, records, data/privacy, security, and business continuity.
- Management reporting: strategy KPIs, financials, cash, sales, people, legal/compliance, cyber/data, incidents, and top risks.

First-year compliance calendar

Frequency	Illustrative agenda
Weekly (first month)	Stabilisation, incidents, cash, customer/vendor issues, critical defects
Monthly	Management accounts, forecast, KPIs, risk/control, compliance, people, data/cyber
Quarterly	Strategy, budget reforecast, related parties, cap table/incentive register, policy attestations
Annual / as required	Corporate approvals, filings, tax, audit, licences, insurance, board effectiveness

CALENDAR VALIDATION

Cadence di atas adalah governance baseline, bukan daftar tenggat regulator. Company secretary dan penasihat harus menyusun kalender aktual berdasarkan jenis entitas, kegiatan, lokasi, izin, status pajak, dan perubahan regulasi.

14 Komunikasi & Change Management

Sampaikan apa yang berubah, apa yang tidak, kapan, dan melalui siapa.

Audiens	Message objective	Timing trigger	Owner
Leadership	Decision clarity, accountability, confidentiality	Before mobilisation and each gate	Sponsor
Employees	Continuity, rights, practical actions, support	After legal/people plan approved	People
Key customers	Service continuity, contracting/data implications	Before consent/notice deadline	Commercial
Vendors/landlords	Onboarding, payment, consent, invoice cut-off	Sequenced by criticality	Procurement
Banks/financiers	KYC, mandate, fund flow, consent/covenant	Early; before Gate 3	CFO
Regulators	Accurate filing/notification and operating position	Counsel-confirmed timing	Legal
Public/media	Consistent facts; no premature claims	Only if approved/necessary	Comms

Communication controls

- Single source of truth: approved message house, FAQ, contact list, and version log.
- No external announcement before legal effectiveness, required notice/consent sequence, and board approval are confirmed.
- Avoid claims that the transition eliminates all liabilities, guarantees tax outcomes, or assures investment/employee value.
- Maintain Q&A and feedback log; escalate promises, complaints, misinformation, and possible disputes.
- Apply insider/confidentiality protocol where transaction information is price-sensitive or commercially sensitive.

15 Day-1, Day-30 & Day-100

Stabilisasi terukur setelah tanggal efektif.

Horizon	Priorities	Output
Day 1	Authority, banking, invoicing, payroll, systems/access, service, incident response	Smoke-test log; issue bridge; employee/customer confirmation
Day 2–10	Fund-flow reconciliation, opening balances, consents/notifications, defects	Reconciliation pack; defect register; closing binder draft
Day 30	KPI baseline, policy adoption, control tests, TSA/service review, cash forecast	30-day report; remediation commitments
Day 60	Process optimisation, residual migration, audit/tax readiness, talent check	Updated risk/control matrix; capability plan
Day 100	Benefits realisation, governance effectiveness, lessons, project closure	100-day board paper; handover; closure decision

Transition dashboard

Indicator	Definition	Target approach
Critical incidents	Service, legal, cash, data/security, people events	Zero tolerance for uncontained critical incidents
CP/CS closure	Evidence accepted, not merely task marked complete	100% CP before close; CS by approved due date
Consent coverage	Value/risk-weighted critical contract coverage	Target set from contract map
Reconciliation status	Bank, AR/AP, payroll, opening balances, intercompany	No unexplained material differences
Control effectiveness	Key controls passed operating test	All critical controls effective or compensated
Stakeholder health	Complaints, churn, attrition, consent delay	Thresholds approved from baseline
Benefits realisation	Governance, growth, cost, risk, capital objectives	Board-approved baseline and owner

16 Lampiran Alat Kerja

Template ringkas untuk mengoperasikan panduan.

A. Decision log

ID	Decision	Options	Owner	Due	Outcome / rationale
D-___					
D-___					
D-___					

B. Issue & risk acceptance

ID	Issue/risk	Impact	Mitigation/control	Owner	Due	Residual acceptance
IR-___						
IR-___						

C. Consent tracker

Counterparty	Contract	Clause	Required action	Owner	Status	Evidence

D. Gate sign-off

Function	Reviewer	Conclusion	Exceptions	Date/sign-off
Business		Ready / conditional / no-go		
Legal		Ready / conditional / no-go		
Tax/Accounting		Ready / conditional / no-go		
People		Ready / conditional / no-go		
Operations/IT/Data		Ready / conditional / no-go		

E. Definition of done

- Dokumen final ditandatangani oleh pihak berwenang dan effective conditions terpenuhi.
- Filings, registrations, notifications, dan consents memiliki bukti atau action owner yang disetujui.
- Aset, kontrak, people, IP, data, sistem, kas, dan kewajiban dapat direkonsiliasi before/after.
- Closing binder, decision log, risk acceptance, dan issue tracker telah diserahkan ke business-as-usual owners.
- Board menerima Day-100 report dan menyetujui closure atau perpanjangan dengan scope terbatas.

F. Daftar pertanyaan untuk penasihat profesional

15. Apakah structure steps sesuai kewenangan, corporate benefit, fiduciary duties, dan dokumen konstitusional Sentra?
16. Consent, filings, licences, employee steps, data obligations, atau waiting periods apa yang berlaku berdasarkan fakta final?
17. Konsekuensi pajak, bea, withholding, deductibility, invoicing, dan transfer pricing apa yang timbul per step dan per pihak?
18. Bagaimana transaksi dan setiap ESOP/phantom arrangement dicatat, diukur, disajikan, dan diungkap?
19. Valuation date, standard, methodology, assumptions, dan independent evidence apa yang tepat?
20. Risiko historis mana yang tetap pada entitas lama, berpindah, atau perlu indemnity/reserve/control?
21. Apa yang berubah apabila tanggal efektif, nilai, participant population, atau transaction route berubah?
